|--|-------------------------|
| Application Number | |
| Customer Name | |
| Application Name | |
| Revision | |
| Submission Date | |
| Brief Description of Application | |
| SSI salesperson name | |
| Customer Contact | |
| Customer Contact Phone Number | |
| Shipping Address | |
| City, State, Zip | |
| Ship to Attention | |
| Estimated Annual Volume | |
| SAE J1810 5 hole mount? | |
| Input Voltage Range | |
| PCB to be used | |
| Operating Temperature Range | |
| Control Module or gauge interface and output type | |
| Market Segment | |
| Standard Gauge Manufacturer (if applicable) | |
| Standard Gauge Model / Part Number (if applicable) | |
| Linear Output? (linear tank geometry?) | |
| Tank Drawing Attached | |
| Special Part Marking Requirements? | |
| Special Regulation/Quality/Inspection Requirements? | |
| Focus Tube Required? | |
| Is the tank stationary? | |
| Medium being sensed | |
| If other medium, please specify | |
| System of Measurement | Inches Centimeters |
| Determine Maximum Tank Depth | 0.00 |
| Reserve desired | |
| If a reserve is desired, specify depth measured from tank bottom | |
| Number of wires | TBD |
| Delphi (Packard) connector part no. | TBD |
| Power Wire color | Red |
| Output Wire color | Yellow |
| Ground Wire color | Black |
